

I am writing to say how important the K-LOVE radio stations in our area are to our household and the surrounding communities. They provide distinctive positive Christian music as a public service. The effect of their being displaced by LPFM broadcasters would be a great loss to all of us who need and enjoy the uplift of K-LOVE's positive Christian music format. I believe K-LOVE is so beneficial that I have been voluntarily supporting them for several years. I travel daily in three counties as a hospice chaplain and have to switch between radio stations to continue to receive the broadcast. Independent LPFM broadcasters could not provide this a service to commuters like me and it would be questionable if they would want to do it. I agree that there is a need for locally focused radio stations but they should not replace the distinctive focused and listener supported nation wide radio stations already on the FM Band that are provided as a public service regardless of economic or other conditions. K-LOVE reaches into prisons, nursing homes, healthcare, and other settings with hope for a better future. Do not destroy what has taken years and millions of dollars of listener voluntary contributions to make possible.

Thank you for your consideration of this letter.
